

Commercial Finance Opportunities USD

Alternative Fixed Income Opportunities

08/2021

The Commercial Finance Opportunities Fund (CFO) is an experienced investor alternative credit fund focused on invoice, asset and commercial finance opportunities primarily in the UK and the US. CFO operates a diversified investment portfolio consisting of secured short-term commercial and industrial loans and finance agreements, often in relation to government funded schemes and infrastructure projects.

CFO is an absolute return investment strategy designed to outperform traditional equity and fixed income markets on a risk-adjusted basis. Outperformance is sought by investing in a diverse loan portfolio that generates reliable interest income streams, often with low default risk. A strong and established credit underwriting process has been designed to manage individual client and sector asset allocation risk. Most transactions are secured on assets including outstanding invoices, real estate and pledged personal guarantees from the underlying borrowers.

Most of CFO's underlying transactions have been procured and administered by a dedicated, specialist UK-based finance arranger that has lent over USD 2.8 billion and directly manages and co-funds several debt finance portfolios for large institutions. Members of this team have extensive experience in commercial and investment banking, finance and accounting at leading firms. Sophisticated systems and procedures are used throughout the origination and underwriting process and extensive research including customer background checks and credit score analysis is conducted before each finance agreement goes live.

- Diverse portfolio of secured commercial and industrial loans, and finance agreements
- Aims to achieve consistent absolute returns in most market environments
- Objective: Returns of 4% - 6% p.a. with target volatility of 1% p.a.
- Very low correlation to traditional equity and fixed income markets
