JUNE 2025

Prepared by PCSL and adapted for Malta by PCML
Adopted by All Group Functions

Background

Prestige, as a group, is committed to conducting its business in accordance with all applicable Data Protection laws and regulations and in line with the highest standards of ethical conduct. It applies to all entities within the Prestige Group and is designed to ensure compliance with applicable data protection and privacy regulations in the jurisdictions where these entities are located, ie Malta and the United Kingdom. It has therefore adopted the following principles and undertakings to underpin this.

The principles for processing of personal data:

Lawfulness, fairness and transparency

Restriction to a specific purpose

Personal data will only be collected for specified explicit and legitimate purposes and will not be processed in a manner incompatible with those purposes.

Relevant Data

Personal data will be adequate, relevant and limited to what is necessary. Personal data will not be stored longer than necessary.

Prestige respects the rights of all data subjects including rights of access to their data, the right of restriction of processing or erasure, and the right of accuracy. Prestige will provide clear and unambiguous information about how and why subjects' data are collected and processed.

Right to be Forgotten

Time limits for storage of personal data will be defined. Prestige will erase personal data that is no longer necessary in relation to the purposes for which it has been collected or where the original consent or permission is withdrawn and no other legitimate purpose for processing applies.

Data security

Personal data will be processed securely. Measures will be taken against unauthorised processing or alteration, and against loss or destruction or unauthorised disclosure of or access to personal data transmitted, stored or otherwise processed. Prestige will seek to ensure ongoing integrity, availability, confidentiality and authenticity.

Prestige will provide resilient systems and services when processing personal data.

In the event of an incident Prestige has the ability to restore the availability and access to data in a timely manner.

Data protection by design and by default

Prestige will implement appropriate technical and organisational measures for ensuring that, by default, only personal data that is necessary for each specific purpose of the processing is processed.

Accountability

There shall be accountability in all processing activities.

This Policy defines requirements to ensure compliance with laws and regulations applicable to the Prestige's collection, use, processing, and transfer of personal data throughout the world. Prestige consists of several companies under common ownership and control and has agreed to comply with the policies set down and utilise the UK company as the Issuer and maintainer of the policy.

Scope and Jurisdictional Applicability

Prestige is committed to complying with the applicable Data Privacy and Protection requirements in the countries in which it operates. Because of differences among these jurisdictions Prestige has adopted a Data Protection Policy which creates a common core of values, policies and procedures intended to achieve generic compliance, supplemented (where applicable) with additional guidance applicable in those jurisdictions which require such additional guidance.

This Policy is based upon the UK Data Protection Act 2018 and the General Data Protection Regulation (GDPR) as amended on 01 January 2021 by regulations under the European Union (Withdrawal) Act 2018, to reflect the UK's status outside the EU but remains operating alongside the EU Regulation 2016/679, which provides a model for global Data Protection and privacy compliance. For operations based in Malta, this Policy also reflects the provisions of the Malta Data Protection Act (Chapter 586 of the Laws of Malta), which supplements the GDPR and governs national implementation. Prestige has adopted this policy for Prestige affiliated companies who may be outside of the UK.

This Policy applies to all affiliates, suppliers and contacts who receive and send Personal Data to and from Prestige, have access to Personal Data collected or processed by the Prestige, or who provide information to the Prestige, regardless of geographic location.

Prestige will use reasonable efforts to correctly establish its status for all Data Processing as either a Data Controller, or Data Processor acting for another Data Controller.

This Policy also reflects operational resilience requirements applicable to financial entities under Regulation (EU) 2022/2554 (Digital Operational Resilience Act – DORA), particularly as they intersect with data protection controls.

Group Compliance

Prestige is committed to ensuring the adherence to the policy and will implement procedures, as well as any duties required by applicable law, including:
